Final Transition Cost Allocation Adjustment

Consistent with the IPOPIF [AR 2022-01 Valuation and Cost Rule.pdf](#), to ensure equitable treatment of all participating Article 3 funds, a final true-up allocation of all costs paid using funds from the consolidated IPOPIF investment portfolio from inception through December 31, 2024, was completed in June 2025. The "true-up" or final transition cost allocation was calculated based on the December 31, 2024, pro rata balance of each participant pension fund as compared to the consolidated December 31, 2024, balance of all participant pension funds. Total allocated costs were \$15,492,597, including the loan repayment with the Illinois Finance Authority, representing 12.25 basis points of each participant fund's balance at December 31, 2024.

A separate calculation was performed for investment manager fees which were allocated on a pro rata basis to each participant pension fund based on the time that a participant pension fund's assets were invested by IPOPIF. The sum of these two calculations was compared to amounts previously paid by each participant pension fund, and balances due were charged interest at IPOPIF's actual rate of return, calculated monthly and reduced to a daily rate for each month. Interest was charged through May 31, 2025.

The balances receivable or payable from both calculations plus interest were consolidated into one number for each participant fund and appear on the Monthly Statement Market Value Summary as “Adjustment” in the Current Period and Year-to-Date roll forward. The last page of the Monthly Statement, the “Statement of Transaction Detail” also presents the “Adjustment” as “Final Transition Cost Allocation Adjustment” with a date of June 25, 2025.

In conclusion, the calculations made for all Article 3 police pension funds resulted in small adjustments to each participant fund that are consistent with the equitable treatment of all participating police pension funds as required by Illinois Pension Code 40 ILCS 5/Art. 22B.
