Illinois Police Officers' Pension Investment Fund Board of Trustees  
Article 3 Participating Pension Funds

Dear Board Trustees,

I am pleased to present the Annual Comprehensive Financial Report of the Illinois Police Officers' Pension Investment Fund (the Fund or IPOPIF) as of and for the years ended June 30, 2025, and 2024. The information contained in this report is intended to provide a detailed overview of the Fund's financial and investment results for the fiscal years ended June 30, 2025, and 2024.

In accordance with 40 ILCS 5/22B-125, at least annually, the books, records, accounts, and securities of the Fund shall be audited by a certified public accountant selected by the board and conducted in accordance with the rules and procedures promulgated by the Governmental Accounting Standards Board.

To the best of my knowledge and belief, the enclosed data are accurate in all material respects, and are reported in a manner designed to present fairly the financial position and changes in financial position of the Fund in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America, by a firm of licensed certified public accountants.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rest with Fund Management, and shall be based on a comprehensive framework of internal controls that is established for this purpose.

Because the cost of control should not exceed the benefits to be derived, the objective is to provide reasonable, rather than absolute assurance, that the financial statements are free of any material misstatements. Management is responsible for maintaining a system of adequate internal accounting controls designed to maintain accountability of assets and to permit preparation of financial statements in accordance with GAAP.

I believe the internal controls in effect during this fiscal period ended June 30, 2025, adequately safeguard the Fund's assets, and provide reasonable assurance regarding the proper recording of financial transactions. All disclosures necessary to enable the reader to gain an understanding of the Fund's financial activities have been included.

Sikich CPA LLC, Independent Certified Public Accountants, has issued an unmodified opinion on the Fund's financial statements, for the fiscal periods ended June 30, 2025, and 2024. The Independent Auditors' Report is located at the front of the Financial Section of the report.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Fund's MD&A can be found immediately following the report of the independent auditors.

## Introduction

Effective January 1, 2020, Public Act 101-0610 amended the Illinois Pension Code and provided for the mandatory consolidation of the investment assets of the downstate and suburban public safety pension funds into two investment pools, one for police officers (known as Article 3 Funds) and one for firefighters (known as Article 4 Funds).

The law created the Illinois Police Officers' Pension Investment Fund (the Fund) that is responsible for the consolidation of the investment assets of the Article 3 participating pension funds (Participating Pension Funds) and vests the Fund's Board of Trustees with the authority to "manage the reserves, funds, assets, securities, properties and monies" of the approximately \$9.50 billion in police pension fund assets, the estimated value at inception of the Fund. The Fund exists for the exclusive purpose of investing the assets of the Article 3 participating pension funds.

The law does not take away the local Article 3 participating pension funds' exclusive authority to administer the local pension fund, award disability benefits, manage retirement benefits and survivor benefits distribution and eligibility. The law stipulates that the assets and liabilities of local pension funds will remain under the ownership of each local pension board.

The investment trust fund is comprised solely of the Article 3 participating pension funds' assets and are combined for investment purposes only, with the express purpose of eliminating unnecessary and redundant administrative costs, thereby ensuring more money is available to fund pension benefits for the beneficiaries of the Article 3 participating pension funds. The pension trust fund assets of the Article 3 participating pension funds cannot be accessed by the State and are to be maintained in accounts held outside the State treasury.

The investment fund is governed by an independently elected and autonomous Board of Trustees that is charged with the operation and administration of the Fund. As provided for under the statute, the Trustees of the Fund shall:

- a.** be fiduciaries for the participants and beneficiaries of the Article 3 participating pension funds and shall discharge their duties with respect to the pension fund solely in the interest of the participants and beneficiaries,
- b.** take all reasonable steps to ensure that all of the Article 3 participating pension funds are treated equitably, and
- c.** ensure that the financial condition of one Article 3 participating pension fund will have no effect on the financial condition of any other Article 3 participating pension fund.

## Major Initiatives and Significant Events

### Board of Trustees:

The IPOPf is governed by an independent and autonomous Board of Trustees. The Trustees of the IPOPf are fiduciaries and will discharge their duties with integrity and solely in the best interest for the participants and beneficiaries of the Article 3 participating pension funds. The members of the Board of Trustees, as of June 30, 2025, are:

- a.** Three elected members representing municipalities who are mayors, presidents, chief executive officers, chief financial officers, or other officers, executives, or department heads of municipalities:
  - i.** Michael Inman, Municipal Representative, Mayor, City of Macomb
  - ii.** Debra Nawrocki, Municipal Representative, Chief Financial Officer, City of Elgin
  - iii.** Phil Suess, Municipal Representative, Mayor, City of Wheaton
- b.** Three elected members representing participants and who are participants:
  - i.** Lee Catavu, Vice Chairperson, Participant Representative, Sergeant, Aurora Police Department
  - ii.** Paul Swanlund, Chairperson, Participant Representative, Detective, Bloomington Police Department
  - iii.** Scott Bowers, Secretary, Participant Representative, Police Officer, Peoria Police Department
- c.** Two elected members representing beneficiaries and who are beneficiaries:
  - i.** Daniel Hopkins, Beneficiary Representative, Retired Officer, Collinsville Police Department
  - ii.** Mark Poulos, Treasurer, Beneficiary Representative, Retired Lieutenant, Rock Island Police Department
- d.** One appointed member who is a representative of the Illinois Municipal League:
  - i.** Vacant

## Meetings of the Board of Trustees

The Board of Trustees held eight Board meetings during this fiscal year period. The Board of Trustees scheduled periodic meetings of the Audit and Budget Committee, Contract Committee, Election Committee, Governance Committee, and Legislative Committee during this fiscal year period. Meetings of the Board of Trustees and Committees were conducted as in-person meetings, in accordance with the Open Meetings Act and were available via the Zoom digital platform.

## Administration of the Fund

As of June 30, 2025, the Fund had an approved staffing level of thirteen full-time employees with twelve full-time employees on staff at the Fund.

To promote staff productivity and success, appropriate computer software, hardware and other essential infrastructure purchases were made and are included as administrative expenses within the statements of changes in fiduciary net position.

## Budget

The Board of Trustees approves the Fund's annual budget, following the statutory requirements. The Board of Trustees adopted the budget on June 14, 2024, for the 2025 fiscal year in the amount of \$5,096,516, including General Investment Consultant and Custodial Services budgeted expenses; and adopted a revised budget on April 11, 2025, in the amount of \$4,675,569, including General Investment Consultant and Custodial Services budgeted expenses.

## Investments

Active investment management has been implemented gradually since completing the initial transition of assets in 2022. In fiscal year 2025, IPOPIF funded active investments in emerging market debt (EMB), emerging market equity ex-China (EME), and private credit.

The Investment Policy Statement and Strategic Asset Allocation was reviewed and revised by the Board of Trustees. A final transfer of assets took place in October 2024 with approximately \$1.5 billion in assets transferred to the trust fund. The Board of Trustees retained Albourne as the Private Markets Consultant to assist with implementing private market investments. The IPOPIF long-term asset allocation includes a 20% weight to private market investments, including 7% to private equity, 5% to private credit, 5% to real estate, and 3% to infrastructure.

The Valuation and Cost Rule, last amended by the Board of Trustees on September 13, 2024 provides that a "true-up" or final transfer allocation of all costs be performed based on the December 31, 2024 pro rata balance of each participant pension fund as compared to the consolidated December 31, 2024, balance of all participant pension funds. The calculations made for Article 3 participating pension funds resulted in small adjustments to each participant fund that are equitable, consistent with the Valuation and Cost Rule as well as consistent with equitable treatment as required by the Illinois Pension Code 40 ILCS 5/Art. 22B.

The investment portfolio returned 13.0% on a money-weighted basis for fiscal year 2025 compared to the Policy Index of 12.6% and the Broad Based Policy Index of 13.9%.

## Awards

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Fund for its annual comprehensive financial report for the fiscal year ended June 30, 2024. This was the second consecutive year that the Fund has applied for and achieved this prestigious award. To be awarded a Certificate of Achievement, a government or government agency must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

## Acknowledgements

Thank you to the staff and professional consultants who worked under the leadership of the Board of Trustees to prepare the fiscal year 2025 financial statements, and the production of this report. We also thank all of those who work with and on behalf of the Fund throughout the year in many different capacities to assist the Fund perform all statutory responsibilities and serve the membership with dedication and distinction.

## Request for Information

This financial report is designed to provide the Fund Board of Trustees, our membership, taxpayers, and stakeholders with a general overview of the Fund's finances. Questions concerning any of the information in this report or requests for additional information should be addressed to:

## INDEPENDENT AUDITOR'S REPORT

The Honorable Chairman  
Members of the Board of Trustees  
Illinois Police Officers' Pension Investment Fund  
Peoria, Illinois

### Opinions

We have audited the financial statements of the Illinois Police Officers' Pension Investment Fund (the Fund) as of June 30, 2025 and 2024, and the related notes to financial statements, which collectively comprise the basic financial statements as listed in the accompanying table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Illinois Police Officers' Pension Investment Fund as of June 30, 2025 and 2024, and the changes in fiduciary net position for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**ACCOUNTING TECHNOLOGY ADVISORY**

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

### Other Matters

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fund's basic financial statements. The supplementary information is presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### *Other Information*

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, investment section, and statistical section, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

# Management Discussion and Analysis (Unaudited)

Management is pleased to provide this discussion and analysis for the financial activities of the Illinois Police Officers' Pension Investment Fund (the Fund) for the periods ended June 30, 2025, 2024, and 2023. Readers should review the information presented here in conjunction with the additional information provided in the letter of transmittal. This correspondence is intended to serve as an introduction to the Fund's basic financial statements and notes to the financial statements. The Annual Comprehensive Financial Report (ACFR) also contains other information in addition to the basic financial statements.

The Fund was created on December 18, 2019, when Illinois Governor JB Pritzker signed into law Article 22(B) within Chapter 40, Article 5 of the Illinois Compiled Statutes (ILCS). The law, Public Act 101-0610, provided for the mandatory consolidation of the investment assets of the State's public safety pension funds into two investment funds, one for police officers (known as Article 3 Funds) and one for firefighters (known as Article 4 Funds). Furthermore, this law empowered the Fund's Board of Trustees to "manage the reserves, funds, assets, securities, properties and monies" which was initially estimated to represent approximately \$9.50 billion in pension assets once all assets fully transferred.

At the December 9, 2022, Board meeting, the Board confirmed December 31, 2022, as the closing date for the transition period of participating pension funds transfer of investment assets to the Fund. As of December 31, 2022, 328 Article 3 Funds had transferred their investment assets to the Fund, with investment transfers that totaled approximately \$8.56 billion. Four additional Article 3 Funds transferred assets to the Fund as of June 30, 2023, with investment transfers of approximately \$34.57 million. One additional Article 3 Fund transferred assets to the Fund in August of 2023, with an investment transfer of approximately \$13.10 million. In October 2024, 18 Article 3 Funds transferred assets to the Fund of approximately \$1.61 billion.

The Fund will continue to accept cash contributions from Article 3 Funds that have not yet transferred any or all of their investments to the Fund.

## Overview of Financial Statements and Accompanying Information

This discussion and analysis are intended to serve as an overview to the Fund's financial reporting which is comprised of the following components:

1. **Basic Financial Statements:** This information presents the plan net position held in trust for pool participants for the Fund as of June 30, 2025, and 2024. This financial information also summarizes the changes in plan net position held in trust for pool participants for the fiscal periods then ended.
2. **Notes to Basic Financial Statements:** The notes to the financial statements provide additional information that is essential to achieve a full understanding of the data provided in the basic financial statements.
3. **Required Supplementary Information:** The required supplementary information provides information on the employer's contribution to the pension plan and changes in the employer's net pension liability and related ratios.
4. **Supplementary Information:** The supplementary information provides a Detailed Schedule of Administrative Expenses – Budget Amounts and Actual Incurred. As the Fund grows in assets and activities, more information will be provided in this section.
5. **Investment Section:** The Investment section of the report provides information pertaining to the Fund's investment activities for the fiscal period. As the Fund increases its allocations to active investment management, more information will be provided in this section.
6. **Statistical Section:** The Statistical section of the report is included to provide additional historical trend information to review the Fund's past financial performance. Additionally, this section includes helpful Demographic and Economic information for context compared to the Fund's information.

## Financial Highlights

The basic financial statements are prepared in accordance with accounting principles generally accepted in the United States of America as established by the Governmental Accounting Standards Board (GASB). Information is presented for all audited time periods ended June 30, 2025, 2024, and 2023. Information presented and discussed below is designed to focus on events of the current year while providing explanations of changes from the prior reporting periods.

## Fiduciary Net Position

The Statement of Fiduciary Net Position is presented for the Fund as of June 30, 2025, 2024, and 2023, and the financial statements reflect the resources available as of these dates. A summary of the Fund's Statements of Fiduciary Net Position as of June 30, 2025, 2024 and 2023, is presented below:

	2025	2024	2023
Cash and Investments	\$ 13,742,061,353	\$ 10,535,442,749	\$ 9,383,770,015
Receivables	5,108,855	3,745,762	3,759,564
	13,747,170,208	10,539,188,511	9,387,529,579
Other Assets — Net IMRF Pension Asset	—	—	7,426
<b>Total Assets</b>	<b>13,747,170,208</b>	<b>10,539,188,511</b>	<b>9,387,537,005</b>
Deferred Outflows of Resources	725,658	801,936	80,309
Accounts Payable & Accrued Expenses	3,808,777	1,603,075	1,021,294
Net IMRF Pension Liability	446,303	801,012	—
Total Liabilities	4,255,080	2,404,087	1,021,294
Deferred Inflows of Resources	348,056	7,625	—
<b>Net Position Held in Trust for Pool Participants</b>	<b>\$ 13,743,292,730</b>	<b>\$ 10,537,578,735</b>	<b>\$ 9,386,596,020</b>

As of June 30, 2022, the Fund received and reconciled investment assets from 119 Article 3 participating pension funds.

As of June 30, 2023, investment assets from 332 Article 3 participating pension funds had been received and reconciled, representing approximately \$8.60 billion of assets transferred.

As of June 30, 2024, investment assets from 333 Article 3 participating pension funds had been received and reconciled, representing approximately \$8.61 billion of transferred assets. The increase in cash and investments from June 30, 2023, to 2024, is primarily due to investment performance with net investment income of \$1.11 billion earned during the twelve months ended June 30, 2024.

As of June 30, 2025, investment assets from 351 Article 3 participating pension funds had been received and reconciled, representing approximately \$10.20 billion of transferred assets. In October 2024, 18 previously nonparticipating Article 3 funds transferred assets valued at \$1.61 billion to IPOPIF. The increase in cash and investments from June 30, 2024, to 2025 is due to asset and cash transfers plus investment income and gains of \$1.54 billion.

Receivables as of June 30, 2024, consist of \$3.20 million of interest and dividend income earned but not yet paid and \$0.54 million of investment securities sold but not yet settled. As of June 30, 2025, receivables consist of \$3.84 million of interest and dividend income earned but not yet paid and \$1.27 million of investment securities sold but not yet settled. The increase in receivables due to investments sold but not yet settled is due to one investment trade that transacted prior to June 30, 2025, but had not yet settled.

Prior to the transfer of investment assets from Article 3 participating pension funds, the only statutorily provided source of funding for the administration and operations of the Fund was a loan agreement with the Illinois Finance Authority (IFA), which provided for up to \$7.50 million of loan distributions. On June 30, 2022, the Fund had drawn all the allotted \$7.50 million available, and approximately \$3.79 million of these loan distributions were held in cash equivalents as of June 30, 2022. All loan principal and interest was repaid to the IFA on April 3, 2023.

At the July 8, 2022, Board meeting, the Trustees approved staff participation in the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system. Participation was effective September 1, 2022. Accordingly, the Fund included deferred outflows related to pensions and a Net IMRF Pension Asset in the June 30, 2023, financial statements based on the actuarial valuation as of December 31, 2022, which reflects activity and enrollments as of December 31, 2022, and for the four months from September 1 to December 31, 2022.

The Fund included deferred outflows and deferred inflows related to pensions and a net IMRF Pension Liability in the June 30, 2024, financial statements based on the actuarial valuation as of December 31, 2023, which reflects a full twelve months of activity and enrollments as of December 31, 2023.

The Fund included deferred outflows and deferred inflows related to pensions and a net IMRF Pension Liability in the June 30, 2025, financial statements based on the actuarial valuation as of December 31, 2024.

As of June 30, 2025, and 2024, the Fund had accrued expenses of \$2.61 and \$1.60 million, respectively. The additional accrual is due to increased investment manager fees associated with the firms hired by the Board of Trustees to actively manage the portfolio. Payables as of June 30, 2025, consist of \$1.20 million of investment securities purchased but not yet settled. The increase in payables due to investments purchased but not yet settled is due to two investment trades that transacted prior to June 30, 2025, but had not yet settled.

## Statement of Changes in Fiduciary Net Position

The Statement of Changes in Fiduciary Net Position is presented for the years ended June 30, 2025, and 2024. The financial statements reflect the changes in the resources available to invest as of June 30, 2025, and 2024.

A summary of the Fund's Statements of Changes in Fiduciary Net Position for the years ended June 30, 2025, 2024, and 2023, is presented below:

	2025	2024	2023
<b>Additions</b>			
Cash and Investments Transferred from Participating Pension Funds	\$ 2,345,025,350	\$ 555,244,950	\$ 6,182,414,834
Net Investment Income (Loss)	1,529,921,788	1,112,616,510	641,885,924
Investment-Related Expenses	(6,702,477)	(2,992,322)	(2,500,909)
<b>Total Additions</b>	<b>3,868,244,661</b>	<b>1,664,869,138</b>	<b>6,821,799,849</b>
<b>Deductions</b>			
Administrative Expenses			
Board of Trustees	\$ 45,682	\$ 88,684	\$ 75,150

Net Position Held in Trust for Pool Participants			
<b>End of Period</b>	<b>\$ 13,743,292,730</b>	<b>\$ 10,537,578,735</b>	<b>\$ 9,386,596,020</b>

## Additions

For the twelve months ending June 30, 2025, there were 18 Article 3 participating pension funds that transferred investment assets to the Fund, with a fair value of \$1.61 billion. For the twelve months ending June 30, 2024, there was one Participating Pension Fund that transferred investment assets to the Fund, with a fair value of \$13.10 million.

In accordance with the Fund's cash management policy PP-2022-01, Article 3 participating pension funds may contribute cash to the Fund's custodial account with State Street Bank and Trust Company (State Street Bank) on any day the custodian is open for business. During the fiscal years ending June 30, 2025, and 2024, Article 3 participating pension funds contributed approximately \$735.21 and \$542.14 million, respectively, of cash to the Fund through approximately 2,429 and 1,749 transactions.

During the fiscal year ending June 30, 2024, the Fund's investment portfolio earned \$61.78 million of interest and dividend income and \$1.05 billion of net appreciation in the fair value of investments. The Fund's Growth Asset class portfolio, consisting of equity securities, benefited significantly from strong returns as the upward trend for risk assets late in calendar year 2023 continued into the first six months of calendar year 2024. Steady declines in inflation and persistent economic growth, met with some loosening of the labor market, brought economic conditions closer to normal pre-pandemic conditions. Reflective of these economic conditions, the Fund's Income and Risk Mitigation Asset class portfolios, consisting primarily of credit and fixed income securities, made meaningful contributions to the Fund's investment performance. In addition, allocation changes made during the fiscal year to reduce exposure to China in the emerging markets equity portfolio and reallocate short-term debt to US Treasuries proved beneficial. All asset classes experienced positive returns with the Fund earning a net money weighted rate of return of 11.8% in fiscal year 2024, as compared to its policy benchmark of 12.0% and the broad benchmark of 13.1%, both of which reflect a higher equity exposure than the Fund's investment allocation during the fiscal year.

During the fiscal year ending June 30, 2025, the Fund's investment portfolio earned \$71.05 million of interest and dividend income and \$1.46 billion of net appreciation in the fair value of investment assets. Investment gains were primarily achieved in the first and last fiscal quarters. During the first quarter, ending September 30, 2024, the fund gained 6.1% driven by continued economic strength and declining interest rates. Equity participation broadened with US Small Cap and International Stocks taking the lead. Over the next six months through March 31, 2025, the Fund declined modestly in a market characterized by economic uncertainty and market volatility following the November 2024 Presidential election. During final quarter the Fund experienced a 6.2% drawdown in early April on tariff panic which was quickly mollified, setting up a relief rally resulting in an 8.3% gain for the quarter with International Small Cap and Emerging Market Equities leading the charge.

The Fund had a net money-weighted rate of return of 13.0% in fiscal year 2025. This return slightly exceeded the policy benchmark return of 12.6% due to outperformance of active managers but underperformed the broad benchmark return of 13.9% due to a lower allocation to stocks.

## Deductions

In accordance with the Fund's cash management policy, Article 3 participating pension funds may withdraw cash from the Fund's custodial account with State Street Bank to meet the needs of administering Article 3 participating pension fund requirements. Cash withdrawal requests shall be submitted at least seven calendar days prior to the requested transfer date, and Article 3 participating pension funds shall initiate withdrawals using the cash management portal maintained by the custodian. Withdrawals from Article 3 participating pension funds have significantly increased in volume and dollar amount since the first withdrawal occurred in July of 2022. Cash withdrawal transactions were \$658.93 and \$510.97 million, in fiscal years 2025, and 2024, respectively, representing 2,639 and 2,113 transactions, respectively.

The Fund’s administrative expenses in fiscal years 2025 and 2024, were \$3.60 and \$2.92 million, respectively. Administrative expenses in fiscal year 2025 included \$0.27 million of professional service fees to conduct two Tranches of examinations of Article 3 participating pension funds, as required by the Illinois Pension Code 40 ILCS 5/1A-104. There were no professional service fees associated with the examination of Article 3 participating pension funds in fiscal year 2024.

As of June 30, 2025, and 2024, there were 12 and 10 full-time employees of the Fund, respectively. The increase in full-time staff contributed to the increase in personnel costs of \$0.42 million during fiscal year 2025.

With an investment portfolio that increased from \$10.53 to \$13.74 billion during fiscal year 2025, investment related expenses increased from \$2.99 to \$6.70 million from fiscal year 2024 to fiscal year 2025. Investment manager fees were \$5.66 and \$2.14 million in fiscal years 2025, and 2024, respectively. The increased investment manager fees primarily reflect the portfolio transition to higher cost active investment managers as well as higher investment values in fiscal year 2025. Fees directly paid to active managers were approximately \$4.47 million in fiscal year 2025 compared to \$0.88 million in fiscal year 2024. Active manager performance overall has exceeded assigned benchmarks net of fees.

Investment-related expenses are presented as a reduction of investment performance income (loss) and include custodian expenses, investment manager expenses, investment consultant fees, and transition management services. All other administrative expenses are presented in three categories consisting of Board of Trustees Expense, Investment Operations Expense, and Administrative Operations Expense.

Further depiction of the Fund’s total administrative expenses for each of the periods ending June 30, 2025, and 2024, is presented below:

**Fiscal Year 2025 Expenses**

**Fiscal Year 2024 Expenses**

## Future Outlook

A legal challenge to the constitutionality of Public Act 101-0610 (the Public Act) commenced on February 23, 2021, which alleged that Public Act 101-0610 violated the Pension Protection Clause and the Takings Clause of the Illinois Constitution. On May 25, 2022, the Circuit Court of the Sixteenth Judicial Circuit, Kane County, issued a written order finding that Public Act 101-0610 does not violate the Illinois Constitution. On February 7, 2023, the Appellate Court issued an opinion affirming the Circuit Court's order. On January 19, 2024, the Illinois Supreme Court affirmed the judgement of the Appellate Court, thereby affirming the Circuit Court's order and upholding the constitutionality of Public Act 101-0610. With the final ruling by the Illinois Supreme Court, the Fund completed for one final transition of investment assets from Article 3 Funds on October 1, 2024. Approximately \$1.61 billion investment assets were transferred from 18 Article 3 Funds.

With all asset transfers complete, the Board of Trustees, with guidance from Fund staff and professional service providers, continues to take prudent steps in the ongoing development and implementation of the long-term asset allocation and diversification investment strategy designed to generate net returns that exceed the assumed actuarial rate of return with the ultimate goal of providing more money to the Article 3 participating pension funds for the benefit of all their participants.

# Notes to Financial Statements

June 30, 2025 and 2024

## 1. Summary of Significant Accounting Policies

The financial statements of the Illinois Police Officers' Pension Investment Fund (the Fund) have been prepared in accordance with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

### A. Reporting Entity

The Fund was established by legislative act of the Illinois General Assembly, P.A. 101-610, which took effect on January 1, 2020. The Fund is defined as an investment trust fund and an external investment pool. The Fund is not a component unit of any other government. The Fund is responsible for investing the assets of the 357 suburban and downstate police officer pension funds (Article 3 participating pension funds). A nine member Board of Trustees governs the Fund and is made up of three active police officers elected by participants of participating pension plans, two retired police officers elected by beneficiaries of participating pension plans, three executive municipal members elected by mayors, presidents, chief executive officers, chief financial officers, or other officers, executives or department heads of municipalities of Participating Pension Funds, and one member recommended by the Illinois Municipal League appointed by the Governor with the advice and consent of the Senate. The Board of Trustees are fiduciaries for the participants and beneficiaries of the Participating Pension Funds and discharge their duties solely in the interest of the fund participants and beneficiaries.

### B. Fund Accounting

Fiduciary funds are used to account for fiduciary activities (e.g., assets held on behalf of outside parties, including other governments). When investments are held for other entities, an investment trust fund is used.

### C. Measurement Focus and Basis of Accounting

The Fund is accounted for with a flow of economic resources measurement focus. With this measurement focus, all assets, deferred inflows of resources, liabilities and deferred outflows of resources associated with the operation of this fund are included on the Statement of Fiduciary Net Position. Investment trust fund operating statements present increases (e.g., additions) and decreases (e.g., deductions) in net position. The accrual basis of accounting is utilized by the investment trust fund. Under this method, additions are recorded when earned and deductions are recorded at the time the liabilities are incurred.

### D. Investments

Investment trust funds are required to report investments at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment transactions are accounted for on a trade date (date ordered to buy or sell is initiated) and dividend income is recognized on the ex-dividend date. Interest income is recognized on an accrual basis.

For commingled funds, real estate investments, and private credit funds, fair value is determined using the net asset value stated by the fund manager as of June 30, with each fund subject to annual audit.

## **1. Summary of Significant Accounting Policies** *(continued)*

### **E. Participating Pension Fund Contributions and Withdrawals**

The Fund's Cash Management Policy originally approved by the Board of Trustees on January 14, 2022, and most recently amended on January 24, 2025, establishes the framework and procedures for cash contributions and withdrawals by Participating Pension Funds.

Subsequent to an Article 3 participating pension fund's transfer of investment assets to the Fund, a Participating Pension Fund may withdraw cash or deposit contributions through use of a web-based application maintained by the Fund's custodian, State Street Bank and Trust Company (the Custodian).

Article 3 participating pension funds may request withdrawals or contribute cash on any day the Fund's custodian is open for business. Multiple transactions can be entered up to 13 months in advance. Cash withdrawal requests are to be submitted at least seven calendar days prior to the requested transfer date to ensure availability, although the Fund may, in its sole discretion, process a cash withdrawal request with fewer than seven calendar days.

Contributions received by the Custodian will be invested on the same day if feasible or on the next business day. In general, funds received prior to 10:00 am are invested on the day of receipt. Participating Pension Funds shall provide notification of contributions using the portal or by email.

### **F. Compensated Absences**

It is the policy of the Fund to permit employees to accumulate earned but unused paid time off in accordance with the terms of the Fund's Employee Handbook. Accumulated paid time off is recorded as an expense and liability as the benefits accrue to employees. The Fund implemented GASB Statement No. 101, Compensated Absences, but this did not result in a change to opening net position as there was no impact to the Fund.

### **G. Deferred Outflows/Inflows of Resources**

The Statements of Fiduciary Net Position, in addition to assets, includes a separate item for the deferred outflows of resources, which represents a consumption of net assets that applies to future periods and as such, they will not be recognized as an outflow of resources (deduction) until then. In addition to liabilities, the Statements of Fiduciary Net Position includes a separate item for deferred inflows of resources, which represents an acquisition of net assets that applies to future periods and as such, will not be recognized as an inflow of resources (addition) until that time. These deferred outflows and inflows of resources relate to the Fund's participation in the Illinois Municipal Retirement Fund.

### **H. Estimates**

The preparation of financial statements in conformity with GAAP require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

## 2. Deposits and Investments

The Fund is authorized to invest in all investments allowed by the Illinois Compiled Statutes.

The Board of Trustees has adopted an Investment Policy Statement that provides objectives, guidelines, procedures and performance standards for the investment of the assets of the Fund.

In making investment decisions, all fiduciaries to the Fund shall conduct their responsibilities with the care, skill, prudence, and diligence under the circumstances then prevailing which a prudent person familiar with these matters and acting in a like capacity would use in the conduct of an activity of like character and purpose. Fiduciaries, their employees, agents, and designees shall discharge their duties with respect to the Fund solely in the interest of the participants and beneficiaries of the Fund.

All investments shall be clearly held and accounted for to indicate ownership by the Fund. The Fund may direct the registration of securities in its own name or in the name of a nominee created for the express purpose of registration of securities by a national or state bank or trust company authorized to conduct a trust business in the State of Illinois.

### A. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Fund's deposits may not be returned to it. The Fund holds cash deposits of \$123,579, and \$116,689 with Lake Forest Bank & Trust Company NA (Lake Forest Bank) and \$1,131,630 and \$60,777, with State Street Bank as of June 30, 2025 and June 30, 2024, respectively. The Fund does not have a policy to specifically address custodial credit risk for deposits. However, in addition to the \$250,000 of insurance provided by the Federal Deposit Insurance Corporation (FDIC) on the Fund's cash deposits, balances held at Lake Forest Bank are subject to an additional \$250,000 of insurance with the FDIC through a MaxSafe Deposit Account Program. Cash deposits in excess of \$500,000 held with Lake Forest Bank are fully collateralized subject to a collateralized deposit agreement between Lake Forest Bank and the Fund effective December 1, 2020. The Fund did not maintain any deposits in excess of \$500,000 with Lake Forest Bank for the year ended June 30, 2025.

Cash deposits with SSBT are swept daily into a money market investment vehicle managed by an affiliate of SSBT, which is invested in U.S. Treasury obligations.

### B. Investments

#### Investment Rate of Return

For the year ended June 30, 2025, the Fund's investments returned 13.0%, net of fees paid but not accrued, using monthly cash flows and dollar-weighted calculation methodology.

For the year ended June 30, 2024, the Fund's investments returned 11.8%, net of fees paid but not accrued, using monthly cash flows and dollar-weighted calculation methodology.

#### Fair Value Measurement

The fund categorizes fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs using the best information available.

For the year ended June 30, 2025, the Fund had the following recurring fair value measurements:

	Level 1	Level 2	Level 3	Total
Investments by Fair Value Level				
U.S. Equities	\$ 3,895,107,361	\$ —	\$ 69,444	\$ 3,895,176,805
U.S. Fixed Income	—	377,461,282	—	377,461,282
Total Investments by Fair Value Level	\$ 3,895,107,361	\$ 377,461,282	\$ 69,444	\$ 4,272,638,087
Investments Measured at Net Asset Value				
Commingled Funds, Equity				4,358,948,829
Commingled Funds, Fixed Income				4,055,438,807
Real Estate Funds				712,643,045
Private Credit				178,329,504
Total Investments by Net Asset Value				9,305,360,185
<b>Total Investments</b>				<b>\$ 13,577,998,272</b>

Valuation methodologies are as follows:

- U.S. Equities: end of day quoted prices from active exchanges;
- U.S. Fixed Income: quoted prices where available or active, observable trade information and parallels drawn from comparable securities where a quoted price is not available;
- Commingled Funds: end of day quoted prices from active exchanges where available or net asset value as determined by the investment manager;
- Money Market Funds: amortized cost which approximates fair value;
- Real Estate: end of day quoted prices from active exchanges as applicable or net asset value for commingled funds as determined by the investment manager; and
- Private Credit: acquisition price, initially, and thereafter will depend on the date of determination and the application of certain valuation methodologies by the general partner.

For the year ended June 30, 2024, the Fund had the following recurring fair value measurements:

	Level 1	Level 2	Level 3	Total
Investments by Fair Value Level				
U.S. Equities	\$ 3,011,171,763	\$ —	\$ 37,082	\$ 3,011,208,845
U.S. Fixed Income	—	311,929,658	—	311,929,658
Total Investments by Fair Value Level	\$ 3,011,171,763	\$ 311,929,658	\$ 37,082	\$ 3,323,138,503
Investments Measured at Net Asset Value				
Commingled Funds, Equity				3,170,351,584
Commingled Funds, Fixed Income				3,361,636,651
Real Estate Funds				583,297,608
Total Investments by Net Asset Value				7,115,285,843
<b>Total Investments</b>				<b>\$ 10,438,424,346</b>

Valuation methodologies are as follows:

- U.S. Equities: end of day quoted prices from active exchanges;
- U.S. Fixed Income: quoted prices where available or active, observable trade information and parallels drawn from comparable securities where a quoted price is not available;
- Commingled Funds: end of day quoted prices from active exchanges where available or net asset value as determined by the investment manager;
- Money Market Funds: amortized cost which approximates fair value; and
- Real Estate: end of day quoted prices from active exchanges as applicable or net asset value for commingled funds as determined by the investment manager.

### ***Investments Measured at Net Asset Value (NAV)***

The Fund holds shares of interests in commingled funds and private credit funds in which the fair value has been determined using the NAV per share (or equivalent) of the Fund's ownership interest in the partners' capital at the end of the period. The partners' capital is based upon the fair value of the underlying investments.

At the year ended June 30, 2025, the fair value, unfunded commitments and redemption values of those investments is as follows:

	<b>Fair Value</b>	<b>Unfunded Commitments</b>	<b>Redemption Frequency (if currently eligible)</b>	<b>Redemption Notice Period</b>
Investments Measured at NAV				
Commingled Funds, Equity				
International Developed and Emerging Markets	\$ 3,584,497,394	\$ —	Daily, Monthly	1 – 30 Days
International Small Cap	774,451,435	—	Daily, Monthly	5 – 10 Days
Commingled Funds, Fixed Income				
Corporate and Government Credit, Emerging Markets, High Yield, and US Treasury Obligations	3,648,735,432	—	Daily, Monthly	1 – 5 Days
Bank Loans	406,703,375	—	Monthly	10 – 30 Days
Real Estate Funds				
Commingled Fund	494,880,584	—	Daily	1 Day
Group Annuity Contract	217,762,461	—	Daily	1 Day
Private Credit	178,329,504	215,000,000	Not eligible	—
Total Investments Measured at NAV	\$ 9,305,360,185	\$ 215,000,000		

Additional redemption information is as follows:

- Instruction must be received by State Street Global Advisors Trust Company by noon, Eastern Time, at least one business day ahead of redemption;
- Oaktree Capital Management LP has a three year initial lockup that expires on April 30, 2028. Thereafter, liquidity is quarterly with 60 days notice; and
- Principal redemption timing will be subject to cash available and timing of property dispositions.

At the year ended June 30, 2024, the fair value, unfunded commitments and redemption values of those investments is as follows:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Investments Measured at NAV				
Commingled Funds, Equity

Total Investments Measured at NAV	\$ 7,115,285,843	\$ —		

Commingled funds (equity, fixed income and real estate) are valued at net asset value and generally do not have readily attainable fair values.

The Fund invests in seven commingled index funds that are retirement pooled funds and common trust funds managed by the State Street Global Advisors Trust Company (SSGA). Each of the commingled funds seeks an investment return that approximates as closely as practicable, before expenses, the performance of the following benchmarks: Non-U.S. Stocks in developed markets, U.S. High Yield Bonds, Real Estate Investment Trusts, Emerging Market Debt, Core Bonds, U.S. Treasury Bonds, and Short-Term Bonds.

The Fund invests in three commingled funds that are invested in international small cap stocks that are managed by Acadian Asset Management LLC, LSV Asset Management and WCM Investment Management LLC. These actively managed commingled funds seek investment returns that exceed Non-U.S. small cap equity benchmarks.

The Fund invests in two commingled funds that are invested in emerging market ex-China stocks that are managed by ARGAs Investment Management, LP and William Blair Investment Management, LLC. These actively managed commingled funds seek investment returns that exceed Emerging Market ex-China equity benchmarks.

The Fund invests in two commingled funds that are invested in non-investment grade bank debt consisting primarily of senior secured loans and high yield bonds. The commingled funds are managed by Ares Management LLC and Pacific Asset Management LLC. These actively managed commingled funds seek investment returns that exceed the Credit Suisse Leveraged Loan Index.

The Fund invests in a commingled fund managed by the Capital Bank & Trust Company that invests in emerging market debt. This actively managed commingled fund seeks investment returns that exceed an Emerging Markets Bond index that includes sovereign and corporate debt issued in U.S. dollars and foreign currencies.

Each of the commingled funds records a net asset value per unit (or equivalent), based on the net assets of the commingled fund. The net asset value of each commingled fund is determined each business day or monthly, based on the fair value of the underlying investments of each fund. Each commingled fund is subject to an annual audit of its financial statements. The value recorded in the financial statements reflects the value of the Fund's units or capital account held as of June 30, 2025, and 2024.

The Group Annuity contract is held with Principal Life Insurance Company and such funds are invested in the Principal U.S. Property Separate Account (the Account) managed by Principal Real Estate Investors, LLC. The focus of the Account is to pursue a private equity core investment strategy through active management of a portfolio of nationally diversified, income producing properties. The Account uses a unit value of recordkeeping in which the value at the valuation date is calculated by multiplying the number of units held by the applicable unit value. The unit value is determined each business day by the appraised fair value of the portfolio less operating expenses accrued but not deducted. The Account is subject to an annual audit of its financial statements. The value recorded in the financial statements reflects the value of the Fund's units held as of June 30, 2025, and 2024. Redemptions of the Account may be limited to \$25,000,000 within a 90-day period in the event the portfolio manager determines such limit is necessary. On July 1, 2022, a withdrawal limitation to all investors was implemented. The limitation provides for pro-rata payment of outstanding withdrawal requests as cash becomes available for distribution, as determined by the portfolio manager. As of February 28, 2025, all outstanding withdrawal requests had been met. Subsequent requests were received through June 30, 2025, and remain subject to the withdrawal limitation.

In December of 2024, the Board of Trustees approved a \$390 million commitment to a customized private credit fund managed by Oaktree Capital Management LP. This investment is structured as a limited partnership in which the Fund holds 99.8% ownership and the General Partner holds 0.2% interest. Fair value is determined by the General Partner using valuation methodologies applied on a consistent basis (which may initially be the acquisition price and thereafter will depend on facts and circumstances known as of the date of determination and the application of certain valuation methodologies pursuant to which the General Partner will generally seek to establish the fair value of the underlying investment using one or a combination of market approach or income approach). The books and records of account of the Fund shall be audited as of the last day of a fiscal year by such nationally recognized accounting firm as shall be selected by the General Partner with the first such audit and related financial report commencing from the Initial Closing through December 31 of the fiscal year in which the Initial Closing occurs.

## Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The Fund's investment policy addresses interest rate risk by establishing the Asset Allocation, Investment Manager Structure and Rebalancing Policy. Development of the asset allocation included scenario and stress testing portfolio sensitivity to changing interest rates. The investment policy establishes rebalancing thresholds and procedures to maintain the desired asset allocation.

The investment policy also establishes investment manager monitoring and evaluation provisions to ensure that investment manager process and positioning does not introduce unexpected or uncompensated risks. The Fund is significantly invested in commingled funds that seek to mimic the investment characteristics of the associated index and not take active positions that might potentially increase interest rate risk. The Fund's investments in actively managed non-investment grade bank debt commingled funds are floating interest rate products and thus interest rate risk is minimized.

Duration is a risk metric that can be used to measure a debt investment's exposure to fair value changes arising from changing interest rates. Modified duration is the percentage change in price of a bond for a unit change in yield. It thus measures the price sensitivity of a bond to changing interest rates.

The table below provides the modified duration rate as of June 30, 2025, and 2024.

	2025		2024	
	Fair Value	Modified Duration Rate	Fair Value	Modified Duration Rate
U.S. Fixed Income				
U.S. Treasury Inflation Indexed Bonds	\$ 377,132,668	2.31	\$ 311,835,096	2.37
U.S. Fixed Income in Transition Account	328,614	4.15	94,562	7.60
Total U.S. Fixed Income	\$ 377,461,282		\$ 311,929,658	
Other U.S. Fixed Income by Security Type				
U.S. Government and Federal Agency Obligations	121,693		45,314	
Municipal Bond Obligations	203,492		48,494	
Collateralized Mortgage Obligations	3,429		754	
Total Other U.S. Fixed Income by Security Type	\$ 328,614		\$ 94,562	

The Fund's investments in fixed income commingled funds have effective durations that ranged from 1.86 to 6.53 as of June 30, 2025, and from 1.85 to 6.66 as of June 30, 2024.

### Credit Risk

Credit risk is the risk that an issuer of a debt security will not pay its interest or principal as scheduled. The Fund's investment policy addresses credit risk by establishing the Asset Allocation, Investment Manager Structure and Rebalancing Policy. Development of the asset allocation included scenario and stress testing portfolio sensitivity to changing credit spreads (relative valuation to U.S. Treasury securities). The investment policy establishes rebalancing thresholds and procedures to maintain the desired asset allocation. The investment policy also establishes investment manager monitoring and evaluation provisions to ensure that investment manager process and positioning does not introduce unexpected or uncompensated risks. The Fund is significantly invested in index funds that seek to broadly diversify credit risk, mimic the investment characteristics of the associated index and not take active positions that might potentially increase credit risk.

As of June 30, 2025, the Fund's investments were rated as follows:

	Moody's Quality Rating	Total
U.S. Fixed Income	Aa1	\$ 377,174,227
	Not rated	287,055
Total U.S. Fixed Income		\$ 377,461,282

The Fund had a \$162,807,872 investment in the State Street Institutional Treasury Money Market Fund as of June 30, 2025, which was rated AAAm by Standard & Poor's.

As of June 30, 2024, the Fund's investments were rated as follows:

	Moody's Quality Rating	Total
U.S. Fixed Income		
	Aaa	\$ 311,883,615
	Not rated	46,043
Total U.S. Fixed Income		\$ 311,929,658

The Fund had a \$96,840,937 investment in the State Street Institutional Treasury Money Market Fund as of June 30, 2024, which was rated AAAm by Standard & Poor's.

### ***Foreign Currency Risk***

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of investments and deposits. Although the Fund does not have a formal policy regarding foreign currency risk, the Fund does not invest directly in foreign currency or investments denominated in foreign currency. The Fund's foreign currency risk is thus limited to investments in commingled funds managed by external investment managers hired by the Board of Trustees. These funds are subject to investment guidelines and the non-U.S. funds seek an investment return that approximates the performance of the various non-U.S. market-weighted cap indices. Foreign currency risks are thus consistent with these index benchmarks.

As of June 30, 2025 and 2024, the Fund did not directly hold any foreign currency.

### ***Custodial Credit Risk for Investments***

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. While the Fund does not have a policy which limits its exposure to custodial credit risk, as of years ending June 30, 2025 and 2024, there were no securities held by the counterparty or by its trust department or agent that were not in the Fund's name.

### ***Concentration of Credit Risk for Investments***

The Fund's portfolio is managed by professional investment management firms. Each investment manager must comply with risk management guidelines individually assigned to them as part of their investment management agreement. The Fund did not have any single issuer investment that exceeded 5% or more of the Fund's fiduciary net position or the investment portfolio at years ending June 30, 2025 and 2024. The Fund invested in the following investments that represent greater than 5% of the fiduciary net position at June 30, 2025 and 2024.

	2025	2024
State Street MSCI EAFE Index Non-Lending Fund	2,359,395,182	1,792,435,592
State Street U.S. Short-Term Government/Credit Bond Index Non-Lending Fund	1,335,654,120	1,048,922,103
State Street U.S. High Yield Bond Index Non-Lending QIB Common Trust Fund	763,790,119	727,292,077
State Street Emerging Markets Hard Currency Sovereign Bond Fund	—	625,225,679

### Derivative Securities

Fund investment managers may enter into financial futures derivative transactions in accordance with their guidelines. A futures contract is an agreement between two parties to buy or sell units of a particular index, security or commodity at a set price on a future date. Financial futures represent an off-balance sheet obligation as there are no balance sheet assets or liabilities associated with those contracts. The Fund's transition manager, State Street Global Markets, utilizes financial futures within the transition pool of assets that are being converted to the Fund's asset allocation, in order to obtain market exposure that matches as closely as possible, the Fund's target allocation. These contracts are exchanged-traded treasury and equity index futures. As of June 30, 2025, and 2024, there were no outstanding futures contracts. For the years ended June 30, 2025, and 2024, the Fund had a net realized loss of (\$4,852,993) and a net realized gain of \$10,429, respectively, from derivative transactions. These realized gains and losses are included in net appreciation (depreciation) of the fair value of investments for the respective year on the Statement of Changes in Fiduciary Net Position.

Commingled Funds in which the Fund invests may engage in hedging and other derivative transactions including interest rate derivatives, credit derivatives, currency derivatives, and futures. These derivative transactions are consistent with the underlying agreements and investment objectives pertaining to the commingled funds. Realized or unrealized gains or losses from the derivative transactions of the commingled funds are included in the investment income earned by the Fund.

### Investment Management Fees

Fees paid for investment management services that are charged directly to the Fund were \$5,656,245 and \$2,143,162, for the years ended June 30, 2025, and 2024, respectively. These fees are included in investment expenses on the Statements of Changes in Fiduciary Net Position. Fees for investment management services for some commingled funds are netted against the investment earnings of the respective investment vehicle and are included within the net appreciation (depreciation) of the fair value of investments on the Statements of Changes in Fiduciary Net Position. These fees were \$5,046,294 and \$1,829,292, for the years ended June 30, 2025, and 2024, respectively. All fees are charged in accordance with the respective investment manager agreement.

## 3. Leases

The Fund entered into a lease agreement for office space on October 1, 2021. The lease was most recently amended on February 10, 2023. The lease term began on October 1, 2021, and ends on September 30, 2027, with monthly payments of \$5,375. The fund has evaluated GASB Statement No. 87, *Leases*, and determined the effects to be immaterial to the financial statements.

The following is a schedule of future minimum rental payments expected to be required under the terms of the intended lease as of June 30, 2025.

Fiscal Year Ending June 30,	
2026	\$ 64,500
2027	64,500
2028	16,125
2029	—
Thereafter	—
<b>TOTAL</b>	<b>\$ 145,125</b>

The following is a schedule of future minimum rental payments expected to be required under the terms of the intended lease as of June 30, 2024.

Fiscal Year Ending June 30,	
2025	\$ 64,500
2026	64,500
2027	64,500
2028	16,125
Thereafter	—
<b>TOTAL</b>	<b>\$ 209,625</b>

#### 4. Defined Benefit Pension Plan

The Fund is a participating employer in the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system, which provides eligible participants retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained online at [www.imrf.org](http://www.imrf.org).

The Fund began participation in IMRF effective September 1, 2022.

##### *Plan Administration*

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required. Benefits and refunds are recognized as an expense and liability when due and payable.

##### *Plan Membership*

At December 31, 2024, IMRF membership consisted of:

Retirees and beneficiaries	—
Inactive employees entitled to but not yet receiving benefits	2
Active employees	10
<b>TOTAL</b>	<b>12</b>

At December 31, 2023, IMRF membership consisted of:

Retirees and beneficiaries	—
Inactive employees entitled to but not yet receiving benefits	2
Active employees	10
<b>TOTAL</b>	<b>12</b>

### ***Benefits Provided***

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The Fund had five Tier 1 active employees as of June 30, 2025, and three Tier 1 active employees as of June 30, 2024.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The Fund had seven Tier 2 employees as of June 30, 2025, and seven Tier 2 employees as of June 30, 2024.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by State statute.

### ***Contributions***

Participating members are required to contribute 4.5% of their annual covered salary to IMRF. The Fund is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the fiscal years ended June 30, 2025, and June 30, 2024, were 10.31% and 6.35% of covered payroll respectively.

### ***Actuarial Assumptions***

The Fund's net pension liability (asset) was measured as of December 31, 2024, and 2023, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2024	December 31, 2023
Actuarial cost method	Aggregate Entry-age normal	Aggregate Entry-age normal
Assumptions		
Price inflation	2.25%	2.25%
Salary increases	2.85% to 13.75% (includes price inflation)	2.85% to 13.75% (includes price inflation)
Investment rate of return	7.25%	7.24%
Asset valuation method	Fair Value of Assets	Fair Value of Assets

### ***Mortality Assumption***

**2024** – For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount Weighted, below-median income, General, Disabled Retiree, Male and Female (both adjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

**2023** – For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount Weighted, below-median income, General, Disabled Retiree, Male and Female (both adjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

### ***Discount Rate***

The discount rate used to measure the total pension liability was 7.25% and 7.24% at December 31, 2024 and December 31, 2023 respectively. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Fund's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### ***Long-Term Expected Rate of Return***

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

2024		
Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	33.50%	4.35%
International Equity	18.00%	5.40%
Fixed Income	24.50%	5.20%
Real Estate	10.50%	6.40%
Alternative Investments	12.50%	4.85% to 6.25%
Cash Equivalents	1.00%	3.60%
<b>TOTAL</b>	<b>100.00%</b>	

2023		
Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	34.50%	5.00%
International Equity	18.00%	6.35%
Fixed Income	24.50%	4.75%
Real Estate	10.50%	6.30%
Alternative Investments	11.50%	6.05% to 8.65%
Cash Equivalents	1.00%	3.80%
<b>TOTAL</b>	<b>100.00%</b>	

*Changes in the Net Pension Liability (Asset)*

### ***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources***

For the year ended June 30, 2025, the Fund recognized pension expense of \$233,164. At June 30, 2025, the Fund reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 591,827	\$ 341,040
Changes in assumptions	—	7,016
Net difference between projected and actual earnings on pension plan investments	7,928	—
Employer contributions after the measurement date	125,903	—
<b>Total</b>	<b>\$ 725,658</b>	<b>\$ 348,056</b>

Deferred outflows of resources of \$125,903 related to pensions resulting from Fund contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the reporting year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	
2026	\$ 108,231
2027	108,323
2028	108,017
2029	58,594
2030	(52,623)
Thereafter	(78,933)
<b>Total</b>	<b>\$ 251,699</b>

For the year ended June 30, 2024, the Fund recognized pension expense of \$186,743. At June 30, 2024, the Fund reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 752,027	\$ —
Changes in assumptions	—	7,625
Net difference between projected and actual earnings on pension plan investments	4,558	—
Employer contributions after the measurement date	45,351	—
<b>Total</b>	<b>\$ 801,936</b>	<b>\$ 7,625</b>

Deferred outflows of resources of \$45,351 related to pensions resulting from Fund contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the reporting year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	
2025	\$ 159,798
2026	159,798
2027	159,800
2028	159,494
2029	110,070
Thereafter	—
<b>Total</b>	<b>\$ 748,960</b>

### ***Discount Rate Sensitivity***

June 30, 2025

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the Fund calculated using the discount rate of 7.25% as well as what the Fund's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
	6.25%	7.25%	8.25%
Net pension liability (asset)	\$ 574,715	\$ 446,303	\$ 348,496

June 30, 2024

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Fund calculated using the discount rate of 7.24% as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.24%) or 1 percentage point higher (8.24%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
	6.24%	7.24%	8.24%
Net pension liability (asset)	\$ 970,791	\$ 801,012	\$ 666,794

## 5. Other Postemployment Benefits

### A. Plan Description

In addition to providing the pension benefits described, the Fund provides postemployment health care benefits (OPEB) for retired employees through a single employer defined benefit plan. The benefits, benefit levels, employee contributions and any employer contributions are governed by the Fund and can be modified at the sole discretion of the Board of Trustees at any time. The plan does not issue a separate report. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The activity of the plan is reported in the Fund's Statement of Fiduciary Net Position and Changes therein.

### B. Total OPEB Liability

Based on the size of the Fund, the number of active plan members, the lack of any retirees participating in the plan and comparison of actuarial valuations for similar entities with similar benefits, the Fund's total OPEB liability as of June 30, 2025 and 2024, is immaterial and, therefore, not recorded by the Fund and no further disclosure is deemed necessary.

## 6. Litigation

On February 23, 2021, the Fund was named as a Defendant in a lawsuit filed in the Circuit Court of the Sixteenth Judicial Circuit, Kane County, Illinois captioned *Arlington Heights Police Pension Fund, et al., v. Jay Robert "J.B." Pritzker*, Case No. 2021 CH 55. Plaintiffs alleged that Public Act 101-610, which created and established the Fund, violated the Pension Protection Clause and the Takings Clause of the Illinois Constitution. On May 25, 2022, the Circuit Court issued a written Order finding that Public Act 101-0610 does not violate the Illinois Constitution, granting Defendants' Motion for Summary Judgment, and denying Plaintiffs' Cross-Motion for Summary Judgment.

On June 1, 2022, Plaintiffs filed an Appeal with the Appellate Court of Illinois for the Second Judicial District, contending that the Circuit Court erred in granting summary judgment in favor of the Defendants. On February 7, 2023, the Appellate Court issued its opinion affirming the Circuit Court's order and finding that Public Act 101-0610 does not violate the Pension Protection Clause or the Takings Clause of the Illinois Constitution.

On March 13, 2023, the Plaintiffs filed a Petition for Leave to Appeal with the Illinois Supreme Court, contending that the Appellate Court erred in finding that Public Act 101-610 does not violate the Illinois Constitution. On May 24, 2023, the Supreme Court granted the Petition. On January 19, 2024, the Illinois Supreme Court affirmed the judgment of the Appellate Court, thereby affirming the Circuit Court's order granting summary judgment in Defendants' favor and against Plaintiffs and upholding the constitutionality of Public Act 101-610.

With the decision of the Illinois Supreme Court affirming the constitutionality of Public Act 101-0610, the Fund continued the asset transition process with one final asset transfer date of October 1, 2024, for all Article 3 Participating Pension Funds that had not yet transferred investment assets. The final transfer was concluded in October of 2024 with all reconciliation receipts provided to the respective participating Article 3 Participating Pension Funds by October 31, 2024. Approximately \$1.61 billion in investments were transferred to the Fund in October of 2024.

## 7. Risk Management

The Fund is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. These risks are covered by commercial insurance purchased from independent private insurance companies. Settled claims from these risks have not exceeded commercial insurance coverage for the past three fiscal years.

Required Supplementary Information

## Schedule of Employer Contributions

Illinois Municipal Retirement Fund

FISCAL YEAR ENDED JUNE 30,	2025	2024	2023
Actuarially Determined Contribution	\$ 165,813	\$ 92,307	\$ 80,198
Contributions in Relation to the Actuarially			
Determined Contribution	165,813	92,307	80,198
<b>CONTRIBUTION DEFICIENCY (Excess)</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ —</b>
Covered Payroll	\$ 1,608,903	\$ 1,454,231	\$ 927,402
Contributions as a Percentage of Covered Payroll	10.31%	6.35%	8.65%

Notes to Required Supplementary Information:

The information presented was determined as part of the actuarial valuation as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows:

- The actuarial cost method was entry-age normal
- The amortization method was level percent of pay, closed
- The amortization period was ten-year rolling period
- The asset valuation method was five-year smoothed fair value

Significant actuarial assumptions were:

- Investment rate of return of 7.25%
- Projected salary increases of 2.75% to 13.75% compounded
- Wage growth of 2.75%
- Price inflation of 2.25%

This schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for years available. The Fund began participation in the IMRF defined benefit plan as of September 1, 2022.

## Schedule of Changes in the Employer's Net Pension Liability and Related Ratios

### Illinois Municipal Retirement Fund

Measurement Date December 31,	2024	2023	2022
<b>Total Pension Liability</b>

### Notes to Supplementary Information:

In accordance with the Illinois Compiled Statutes 40 ILCS 5/22B-118(e), the Board adopted the annual budget to support Fund operations and administration for the year ended June 30, 2025, at its meeting on June 14, 2024. The budget was adopted in accordance with the Board's Budget Administration Policy, PP-2021-01 (Budget Policy). Pursuant to the Budget Policy, the budget was amended with a reduction to total expenditures at the April 11, 2025, board meeting.

## Investment Section

October 22, 2025

Richard A. White, Jr.  
Executive Director  
Illinois Police Officers' Pension Investment Fund  
456 Fulton Street, Suite 402  
Peoria, IL 61602

Re: Certification Illinois Police Officers' Pension Investment Fund- 2025

Dear Mr. White,

State Street Bank and Trust Company as Custodian for Illinois Police Officers' Pension Investment Fund has provided detailed financial reports of all investments (including holdings with their fair market value), disbursements, purchase and sales and other transactions pertinent to the fund for the period of July 1, 2024, through June 30, 2025. State Street Bank and Trust Company certifies that the information is accurate and complete to the best of our knowledge and belief.

Furthermore, State Street Bank and Trust Company provided and will continue to provide the following services as Custodian:

- Receive and hold all amounts paid to the fund
- Accept and deliver securities in accordance with the instruction of appointed Investment Managers
- Collect dividends and registered interest payments
- Collect matured or called securities and coupons
- Provide Performance Reporting
- Invest cash balances held in the accounts in Short Term Investment Fund
- Exercise the rights of ownership in accordance with the pre-described jurisdiction of stock subscriptions and conversion rights
- Hold securities in the name of the Master Custodian or nominee form
- Employ agents with the consent of the Board of Trustees
- Provide disbursement and security fail float income
- In partnership with Northeast Retirement Services, provide Member Fund Accounting Statement
- On-line reporting
- On-line cash platform for Member funds to contribute and make withdrawals from the consolidated fund

Best regards,

A handwritten signature in black ink, appearing to read "Chris Bregoli", written over the printed name and title.

Christopher Bregoli  
Vice President

October 8, 2025

Board of Trustees

Illinois Police Officers' Pension Investment Fund

456 Fulton Street, Suite 402

Peoria, Illinois 61602

Dear Trustees:

Verus is pleased to have had the opportunity to serve the Illinois Police Officer's Pension Investment Fund ("IPOPIF" or "the Fund") since May 2021 and to provide this investment review for the fiscal year ending June 30, 2025.

Verus independently calculated the Fund's fiscal year performance results utilizing a true time-weighted annualized rate of return methodology with daily cash flows and fair values provided by the Fund's custodian bank, State Street Bank and Trust Company. For the fiscal year-ended June 30, 2025, IPOPIF had an investment gain of 13.3% (net of investment management fees) and ended the fiscal year with total assets of approximately \$13.7 billion.

All IPOPIF's investments are managed in accordance with guidelines codified in IPOPIF's Investment Policy Statement. This Statement is reviewed annually to ensure best practices are employed in all aspects of our work and was last updated on March 14, 2025.

## Market Environment

### 2025 Summary

Risk assets delivered strong performance over the past year, as global equities returned 16.2% (MSCI ACWI Index). Fixed income assets also provided solid positive performance, as spreads narrowed and Treasury yields declined. Although markets ended the period mostly in good shape, the ride was bumpy. A change in U.S. administration, shifting trade policy and tariff announcements, uncertainty on timing of Federal Reserve rate cuts and concern with fiscal policy and sovereign debt burdens all led to heightened uncertainty. Although investors had expected domestic economic growth to slow in 2025, that slowing has so far proven more moderate than many had feared. Inflation did not reach the Federal Reserve's 2% goal, but showed progress, now fluctuating in a 2.5%-3.0% range. Tariff-driven price increases were observed in some categories but have so far not been broadly impactful. We expect sticky inflation and generally stronger-than-expected economic conditions to result in fewer rate cuts from the Federal Reserve and a higher-for-longer interest rate environment. The full economic effects of shifting trade policy will likely not be known until later this year and into 2026.

### U.S. Equity

Domestic equities performed well over the past year (S&P 500 +15.2%) but gains have been mostly attributable to a handful of mega-cap stocks propelling the index higher. Forward P/E multiples climbed back to historically high levels, and the S&P 500 dividend yield fell to a historic low of 1.3%. Sentiment around artificial intelligence boosted long-term growth expectations and contributed to investor enthusiasm despite lofty index valuations and other risks. Productivity gains fueled by artificial intelligence investments may provide a path to further strong market gains despite elevated valuations, but the magnitude and timing of those benefits remain uncertain.

### International Equity

International developed equities outperformed U.S. equities over the past year (MSCI EAFE +17.5%), but this was largely due to currency effects from dollar depreciation. European equities led the way (MSCI Euro +22.2%) with Germany (MSCI Germany +41.1%) showing impressive gains on optimism that relaxation of government debt limits and stimulus programs could kickstart a new wave of growth via more rapid industrial production and reinvestment.

Emerging market also performed well (MSCI EM +15.3%) fueled by a recovery in Chinese markets (MSCI China +34.1%). Despite the recent rally, however, Chinese equities remain a significant detractor from emerging market performance over the longer-term, as demonstrated by China's -31% total underperformance over the past 10 years relative to the rest of the emerging markets complex (MSCI EM ex-China).

## Fixed Income

The 10-year U.S. Treasury yield continued to hover around 4.2% at the end of the period, although yields over the previous 12 months moved in a fairly wide range from slightly below 4.0% following April's selloff to 4.6% as Moody's downgraded the U.S. credit rating and fears circulated around the country's fiscal path.

The Federal Reserve held steady as the Fed Funds rate remained in a target range of 4.25%-4.50%, expressing concerns about possible inflationary impacts of tariffs. Fed Chair Jerome Powell at their June meeting that policymakers are "well positioned to wait" and that there were few signs of economic weakening. Markets had priced in two rate cuts by the end of 2025, while the U.S. yield curve has returned to an upward sloping position—the steepest since early 2022 when the Federal Reserve began hiking interest rates. The 10-year U.S. Treasury yield was 0.6% higher than the 2-year yield as of June 30th. Notably, President Trump continues to place pressure on Chair Powell and the Fed to cut rates.

Fixed income assets delivered high single-digit returns over the past year as medium- and shorter-term Treasury yields moved lower and credit spreads tightened. Core fixed income showed a 6.7% return (Bloomberg U.S. Aggregate), while high yield bonds returned 10.4% (Bloomberg U.S. Corporate High Yield). Despite increased borrowing costs, credit default activity has remained muted with no defaults occurring in June, which was only the third instance of no monthly defaults since 2022. Variable rate Bank Loans continued to surpass bonds in both default and distressed activity. High yield bond default rates rose 21 bps to 1.4% during Q2, well below the long-term annual average of over 3.0%. Bank Loan default rates, by comparison, dropped slightly to 3.8%. High yield credit spreads tightened from 3.2% to 2.9% while investment grade spreads narrowed from 0.9% to 0.8%.

## Currency

In a reversal of long-term trends, a depreciating U.S. dollar resulted in significant gains for investors without a currency-hedging program in place. The dollar has fallen approximately 10% over that past six months, and over the past 12 months unhedged currency exposure added 7.4% to international developed equity returns and 2.3% to emerging market equities. While it is difficult to attribute currency movements to individual causes, it is reasonable to assume that shifting trade policy, a weakening economy, and expectations for Federal Reserve rate cuts have had an impact on the recent path of the dollar.

## Private Equity

Private markets have recently disappointed relative to public markets, though the performance is mostly unrealized given the long-term nature of private markets investments. Direct private equity funds outperformed public markets by only +0.6% annualized over the past five years and +1.2% annualized over the past decade, ending December 31, 2024 (FTSE U.S. Direct Private Equity vs. Russell 3000 on a PME basis). If the strong and persistent rally in public markets were to moderate, private equity performance could fall more in line with historical trends.

Perhaps because private equity has not met expectations recently, fundraising has slowed with approximately \$193 billion raised in the first quarter of 2025 across global private equity markets, compared to \$225 billion raised over the same period in 2024. Deal count was substantially less as well at 296 compared to 445 during the same period last year.

## Private Credit

Private credit returned 10.2% for the year ending March 31, 2025, with a majority of the return attributable to higher income. This compared to a 7.7% return from U.S. high yield bonds (Bloomberg U.S. High Yield Index) and 7.0% return from bank loans (S&P UBS Leveraged Loans). Fundraising in closed-end vehicles rebounded substantially, at \$68.7 billion during Q1 across 42 funds, relative to \$30.4 billion across 25 funds the same period in 2024.

## Real Estate

NFI-ODCE total return gross of fees for Q1 2025 was 1.1%, similar to 1.2% in the previous quarter. For the one-year ending March 30th, 2025, the NFI-ODCE total return gross of fees was 2.0%, comprised of 4.2% income and a -2.1% price appreciation. This is a significant improvement from recent years of steep losses, as real estate markets across sectors and geographies slowly recover. Net redemptions continued, as \$1.7 billion was pulled out during Q1 2025, but this was slower than the \$3.4 billion in net outflows during the prior quarter.

## Outlook

The U.S. economy remains relatively strong—a stable labor market and consumer spending trends suggest a low chance of recession in 2025. Tariff inflation effects appear small so far, though additional impacts will likely be felt in coming quarters. Domestic risk asset pricing fully reflects strong current conditions, and we are back to an environment where high prices may temper investor enthusiasm to incur much more risk going forward.

We expect moderate positive growth in 2025 with no recession. Inflation may rise to around 3-3.5% by calendar year end due to tariffs and other price pressures traditionally associated with good economic growth. We do not believe this will be enough inflation to spook markets or to cause major disruptions. The labor market will likely continue to show mixed signals but remain generally stable with less hiring and possibly signs of growing labor productivity which could add to investor sentiment. Earnings forecasts, which are currently high (+10.3% earnings growth for 2025) could further propel U.S. equities despite high valuations.

## Asset Allocation

The IPOPIF has adopted interim and long-term asset allocation targets. Interim targets are necessary to accommodate the initial IPOPIF transition and the subsequent buildout of diversified strategies, including private market investments. Interim targets and rebalancing ranges will be updated periodically, with Board approval, as new investments move the allocation toward the long-term targets.

The table below reflects the current allocation as of 2025 fiscal year-end, as well as the latest interim and long-term asset allocation targets.

Asset Class	IPOPIF Investment Pool Allocation*	Interim Target Allocation	Long-term Target Allocation
<b>Growth</b>	<b>60.1%</b>	<b>58.0%</b>	<b>65.0%</b>
US Large	23.4%	23.0%	23.0%
US Small	5.0%	5.0%	5.0%

## Investment Objectives

As stated in the IPOPIF's Investment Policy, the Fund's primary investment objectives are as follows:

1. To ensure the assets of the Fund are invested with the care, skill, prudence, and diligence that a prudent person acting in a like capacity would undertake.
2. To earn a long-term, net-of-fees, investment return that meets or exceeds the actuarial assumed rate of return, the return of the Broad Benchmark, and the return of the Policy Benchmark consistent with the risk level expected from the asset allocation.
3. To ensure the assets of the Fund are invested in a manner that minimizes and controls the costs incurred in administering and managing the assets.

Objective / Performance	1-Year	Annualized Since Inception (3/1/22)
Actuarial Assumed Rate of Return (Annualized)		6.8%
Broad Benchmark	13.9%	6.7%
Policy Benchmark	12.6%	6.5%
<b>Net-of-Fee Performance</b>	<b>13.3%</b>	<b>6.8%</b>

**Notes:** The Broad Benchmark represents 70% global stocks and 30% global bonds. The Policy Benchmark is a composite of the benchmark returns for underlying asset classes weighted by the Interim Target Allocation weights. Net-of-Fee Performance is calculated on a true time-weighted basis using daily cash flows and daily net asset values.

Verus greatly appreciates the opportunity we have been given to assist the IPOPIF Board of Trustees in meeting the Fund's investment objectives, and we look forward to continuing in our role of investment advisor and providing guidance to help navigate ever-changing capital market environments.

Sincerely,

Scott J. Whalen, CFA, CAIA  
Managing Director

# Investment Policy

The Fund was established by legislative act of the Illinois General Assembly, P.A. 101-610, which was effective on January 1, 2020. The Fund is defined as an investment trust fund and an external investment pool. The Fund is not a component unit of any other government. As cited in 40 ILCS 5/22B-101 of the Illinois Pension Code, the Fund is created with authority to manage the reserves, funds, assets, securities, properties, and moneys of the police pension funds created pursuant to Article 3 of the Illinois Pension Code. The Fund is governed by a nine-member Board of Trustees that is comprised of three active police officers elected by participants of participating pension plans, two beneficiaries elected by beneficiaries of participating pension plans, three executive municipal members elected by mayors, presidents and other executive members of municipalities of Participating Pension Funds, and one member recommended by the Illinois Municipal League appointed by the Governor.

The Board of Trustees adopted an Investment Policy Statement on December 17, 2021, most recently revised on March 14, 2025, that formalizes the Fund's investment objectives, philosophy, policies, and structure, and defines the roles and responsibilities of various entities involved in the investment process. Investment information presented below is intended to be a summarization. For further information on the Fund's investment program, users should refer to the full Investment Policy Statement PP 2021-08 which is located on the Fund's website or available in hard copy upon request.

## Investment Objectives

1. To ensure the assets of the Fund are invested with the care, skill, prudence, and diligence that a prudent person acting in a like capacity would undertake.
2. To earn a long-term, net-of-fees, investment return that meets or exceeds the actuarial assumed rate of return, the return of the Broad Benchmark, and the return of the Policy Benchmark consistent with the risk level expected from the asset allocation.
3. To ensure the assets of the Fund are invested in a manner that minimizes and controls the costs incurred in administering and managing the assets.

# Investment Philosophy

An outline of the core beliefs and long-term acknowledgements that will guide the Fund's investment program is as follows.

- 1.** A well-defined governance structure with clearly delineated responsibilities is critical in achieving consistent, long-term performance objectives.
- 2.** The strategic asset allocation determines the risk-reward profile of the portfolio and is the primary driver of overall portfolio performance and volatility. Key considerations include, but are not limited to, the following:
  - a.** Asset allocation has a greater effect on return variability than asset class investment structure or investment manager selection.
  - b.** Understanding expected performance variance and being steadfast in the face of negative returns is critical to long-term success.
  - c.** Disciplined portfolio rebalancing is a key aspect of prudent long-term asset allocation policy.
- 3.** Risk is multifaceted and will be evaluated holistically, incorporating quantitative measures and qualitative assessments. Risk considerations include, but are not limited to, the following:
  - a.** Key pension plan risk factors include mortality, inflation, and investment returns.
  - b.** Portfolio diversification across different asset classes, regions and risk factors reduces risk and increases risk-adjusted returns over the long-term.
  - c.** Leverage can be an effective tool to enhance diversification and control risk.
  - d.** Uncompensated risk should be minimized.
  - e.** Generating positive investment return requires recognizing and accepting non-diversifiable risk. Not taking enough risk is risky; therefore, the Fund will accept a prudent level of risk in pursuit of its enterprise objectives.
- 4.** Liquidity is a risk factor and a source of return.
  - a.** The Fund should possess sufficient liquidity to meet expected cash needs under normal and stress scenarios.
  - b.** Illiquid investments should be considered if the expected return provides attractive compensation for the loss of liquidity.
- 5.** The opportunity for active manager risk-adjusted outperformance (alpha) is not uniformly distributed across asset classes or strategies. Active strategies are preferred only when there is strong conviction that they can be expected to add alpha, net of fees. Otherwise, passive strategies are preferred.
- 6.** Investment costs will be monitored and minimized within the context of maximizing net return. The goal is not low fees, but rather maximum returns, net of fees.
  - a.** Performance-based fee structures with a low base rate and a cap on participation may be appropriate and promote alignment of interests.
  - b.** The Fund will negotiate aggressively for the lowest fees and will seek most favored nation clauses where appropriate.

# Investment Structure

## Asset Categories and Classes

Fund investments shall be prudently diversified to optimize expected risk and return. Assets can generally be categorized into four functional categories of Growth, Income, Inflation Protection, and Risk Mitigation. Each category can include multiple asset classes, representing different types of investments that can provide diversification within each functional category.

## Asset Allocation

The asset allocation establishes target weights for each asset class and is designed to maximize the long-term expected return of the Fund within an acceptable risk tolerance while providing sufficient liquidity to meet program liabilities. The asset allocation is a key determinant of investment performance. The Fund has adopted interim and long-term asset allocation targets. Interim targets are necessary to accommodate the initial transition and the subsequent buildout of diversified strategies, including private market investments. Interim targets and rebalancing ranges will be updated periodically, with Board approval, as new investments move the allocation toward the long-term targets. Rebalancing and the Policy Benchmark will be based on interim targets. Rebalancing ranges are not included where liquidity constraints prevent rebalancing. The Fund's interim and long-term asset allocation is as follows:

Asset Classes	Target Allocation	Rebalancing Range			Long-term Target Allocation
		Band	Lower	Upper	
<b>Growth</b>	<b>58.0%</b>	<b>10.0%</b>	<b>53.0%</b>	<b>63.0%</b>	<b>65.0%</b>

## Rebalancing Policy

1. Rebalancing is the process of realigning investment weights toward targets to maintain the desired asset allocation.
2. Rebalancing ranges are included in the asset allocation.
3. The Chief Investment Officer (CIO) has the responsibility and authority to rebalance the Fund in accordance with the Fund's Investment Policy.
4. The CIO and the Investment Consultant shall review asset allocations at least quarterly or as appropriate during periods of significant market volatility.
5. Cash contributions to and withdrawals from the Fund may be used to move investment weights towards targets.
6. When asset allocations exceed the prescribed limits, or when deemed prudent by the CIO, with the advice of the Investment Consultant, Fund assets may be rebalanced to the target levels or to some point within the target range. No rebalancing action is automatically required if an asset class weight reaches a rebalancing limit. However, the CIO shall document the rationale for not acting if an allocation falls outside of the rebalancing range.
7. Rebalancing to targets will be considered at least annually by the CIO, with the advice of the Investment Consultant.
8. Rebalancing activity shall be reported at the next meeting of the Board.

## Investment Manager Selection, Monitoring and Evaluation

### Investment Manager Selection

1. Investment Manager selection shall be governed by the Fund's Procurement of Investment Services Policy.
2. Pursuant to 40 ILCS 5/1A-108, the Fund recognizes that it is the public policy of the State of Illinois to promote the economy of Illinois through the use of economic opportunity investments to the greatest extent feasible within the bounds of financial and fiduciary prudence.

## Manager Monitoring and Evaluation

Fund Staff and the Investment Consultant will evaluate each Investment Manager from a qualitative and quantitative standpoint on a quarterly basis.

1. Qualitative factors include, but are not limited to, the following.
  - a. Organizational changes, including but not limited to changes in structure, ownership, management, or departure of key personnel.
  - b. Assets under management at the firm and product level.
  - c. Conflicts of interest.
  - d. Changes in investment strategy, philosophy, process, or style.
  - e. Material litigation or regulatory challenges involving the Investment Manager.
  - f. Material client-servicing problems.
  - g. Minority brokerage utilization.
  - h. Other factors deemed relevant and considered by the Board.
2. Quantitative Review.
  - a. Long-term performance standards should measure an Investment Manager's performance using rolling returns across multiple trailing time periods (e.g., 1-year, 3-year, and 5-year) in relation to the mutually agreed upon performance index and a peer group of investment managers with similar investment styles.
  - b. Managers are expected to maintain their stated investment style and philosophy. Quantitative measures of investment style and philosophy include style mapping, style attribution analysis, and tracking error relative to the benchmark.
3. Investment Staff and the Investment Consultant will review Investment Manager performance with the Board on a quarterly basis.
4. The Investment Consultant and Investment Staff shall identify Investment Managers of concern, provide an analysis of material issues, and recommend appropriate action to the Board. Based on the analysis and recommendation provided by the Investment Consultant and Investment Staff, the Board will evaluate the Investment Manager and take action, if deemed appropriate by the Board.

## Diversity Guidelines

In accordance with the Illinois Pension Code 40 ILCS 5/1-109.1, the Fund's investment policy includes a MWDBE Investment Manager Utilization Policy, a Minority Broker-Dealer Policy, a Fiduciary Diversity Policy and a Business Diversity Policy. For purposes of these policies, MWDBE and Minority Broker-Dealer are defined as a Minority-Owned Business, Women-Owned Business, or Business Owned by Person with a Disability, as those terms are defined in the Business Enterprise for Minorities, Women, and Persons with Disabilities Act, 30 ILCS 575/2, as amended. Along with goals for utilization of MWDBE Investment Managers and Minority Broker-Dealers, the Fund has goals specific to Emerging Investment managers. An "Emerging Investment Manager," as defined in Section 1-109.1(4) of the Illinois Pension Code, means a qualified Investment Adviser that manages an investment portfolio of at least \$10,000,000 but less than \$10,000,000,000 and is a MWDBE.

In addition to specific goals of utilization of MWDBE investment manager by asset class, in accordance with 40 ILCS 5/1-109.1(10), it is the aspirational goal for the Fund to use MWDBE Investment Managers for not less than 20% of the total assets under management. It is also the Fund's aspirational goal that not less than 20% of Investment Managers be minorities, women, and persons with disabilities, as those terms are defined in the Business Enterprise for Minorities, Women, and Persons with Disabilities Act.

Principal Life Insurance Company	1,599,391	217,762,461
<b>Total Investment Fees Net with Investment Return</b>	<b>\$ 5,046,294</b>	

Direct Investment Manager Fees are invoiced to and paid by IPOPIF. These fees are included in Investment Expenses on the Statements of Changes in Fiduciary Net Position.

Investment Fees Net with Investment Return — These fees are deducted directly by the Investment Manager from the Fund's investment balance based on the net asset value of the investment. These fees are not included in Investment Expenses on the Statements of Changes in Fiduciary Net Position.

## Statistical Section

The Illinois Police Officers' Pension Investment Fund (IPOPIF) was created through Public Act 101-0610 that provided for the mandatory consolidation of the investment assets of the State's public safety pension funds into two investment funds one for police and one for fire.

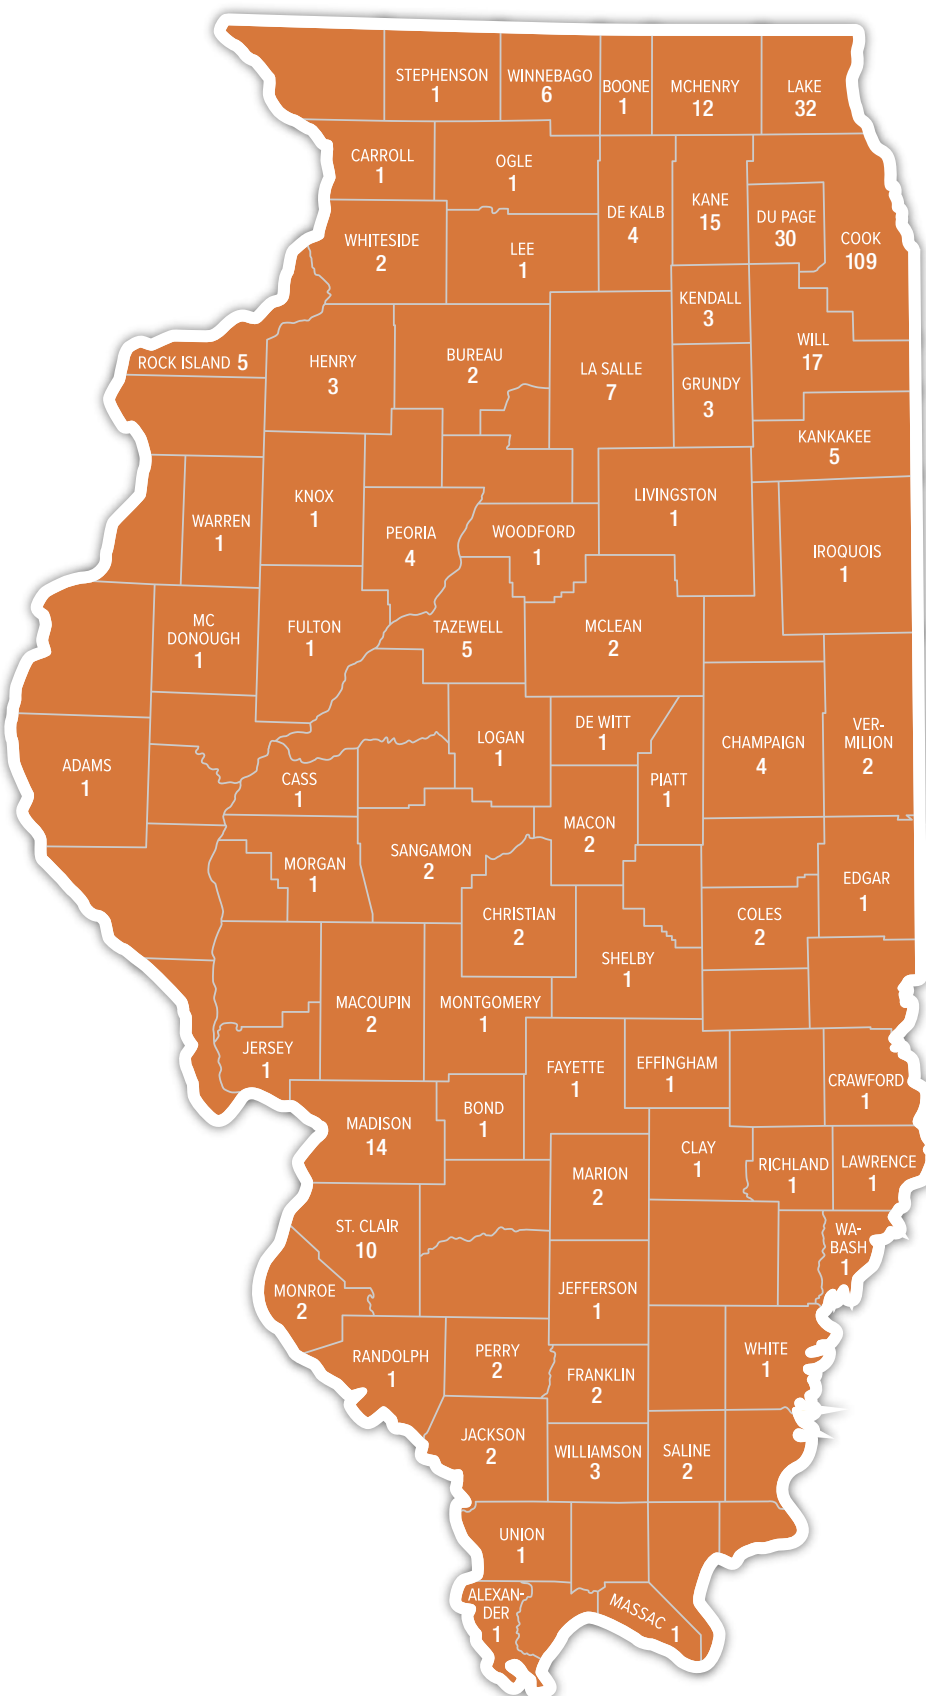

Article 22(B) within Chapter 40, Article 5 of the Illinois Compiled Statutes (ILCS) created the authority to manage the reserves, funds, assets, securities, properties, and moneys of the police pension funds created pursuant to Article 3 of the Pension Code.

Article 3 participating pension funds retain their responsibilities to manage benefit distribution and eligibility determinations, including pension disability awards. The information regarding the financial, operational status, retirement benefits and membership data of each pension system remains within the scope of the local Article 3 participating pension plans to report individually and separately from the IPOPIF annual comprehensive financial report.

The list of those Article 3 participating pension funds that are participating in the mandatory consolidation of investment assets with IPOPIF is included in this section.

# Illinois Police Officers' Pension Investment Fund
